

CHEVIGNON^B

Wheat with international potential, expert for late sowing dates

Advantages:

- Early variety with fast finishing
- Best resistance against leaf and ear diseases
- Short straw, high throughput during harvest
- High lodging resistance

Cultivation:

Nitrogen fertilisation has to be well split to ensure a good protein content
Suitable especially for late sowing dates

Short profile:

---- = very low resistance/early/short,

++++ = very high resistance/late/long
