

LEMMY ^A

Early variety with high yield and protein content

Advantages:

- Unique combination between yield, early maturity, winter hardiness
- Good resistance package towards eye spot, orange blossom midge and fusarium (low DON-content!)
- High protein content and loaf volume

Cultivation:

Suitable for early stress sowing, for all locations and crop rotations
High yield stability

Short profile:

---- = very low resistance/early/short,

++++ = very high resistance/late/long

Plant Development

Vitality

Winter hardiness (6) medium to high

Drought resistance (7) high
