

CALEDON Yellow hulled

Be impressed by this yield and quality!

Advantages:

- Early panicle emergence and medium ripening – very long grain filling
- yellow hulled spring oat with good to very good grain sorting
- high yield level combined with great quality for the food industry
- Outstanding β -Glucan & fat content in kernels

Short profile:

---- = very low resistance/early/short,

++++ = very high resistance/late/long

Lodging resistance
