

# CALEDON Yellow hulled

Be impressed by this yield and quality!

## Advantages:

- Early panicle emergence and medium ripening – very long grain filling
- yellow hulled spring oat with good to very good grain sorting
- high yield level combined with great quality for the food industry
- Outstanding  $\beta$ -Glucan & fat content in kernels

## Short profile:

---- = very low resistance/early/short,

++++ = very high resistance/late/long

Lodging resistance

### Quality

Grading (> 2,0 mm)

Hectolitre weight

# CALEDON Yellow hulled
