

SUNSET DS1469C mid late

Advantages:

- Huge and very tall plant
- High yields in silage with medium qualities
- Ideally fits for biogas production

Short profile:

---- = very low resistance/early/short,

++++ = very high resistance/late/long

Plant height	1	2	3	4	5	6	7	8	9
Dry matter yield	1	2	3	4	5	6	7	8	9
Starch yield	1	2	3	4	5	6	7	8	9
Lodging Res.	1	2	3	4	5	6	7	8	9

SUNSET DS1469C mid late

Hybrid structure:

Hybrid type threeway cross

Grain type flint dent

Silk flowering date

Growth:

Plant height

Resistance:

Lodging Res.

Yield & quality silage:

Dry matter yield

Starch yield
