

QUINTUS^A

Awned, medium early, good disease resistance

Advantages:

- Top 1 yield level in almost all official and postregistration trials in Europe
- High resistance against fusarium, yellow rust and brown rust
- Registration in 5 countries, including Germany, Baltic states and Ukraine

Cultivation:

Cultivation highly profitable due to high yield and low fungicide intensity
Late autumn sowing in winter mild regions possible

Short profile:

---- = very low resistance/early/short,

++++ = very high resistance/late/long

Plant Development

Vitality

Drought resistance (7) high
